

Please do not cut down closed-caption programs. We do not want to get back to dark age. We need to have EQUAL to hearing people where they can listen while we have to guess what they are saying. Some of the captioners did not do well, misspelled etc. A lot of program like on PBS and others that do not have Closed Caption, they are very educational programs. Sometime CC is way delay, need to be in REAL-TIME. Not only that, but it HELPS us with English big time.
